 **Up to 750 kg**  
Capacity 310 - 570 kg      Length 550 - 650 cm

**From 750 kg - Includes registration**  
Capacity 850 kg      Length 750 cm

## PEGA reputation

The PEGA boat trailer guarantees many years of pleasure. The base of all PEGA boat trailers consist of an extra solid frame, so that you can rely on your trailer even in very heavy conditions. The robust frame also offers an excellent road handling and long durability, this is what the PEGA boat trailer is best known for.

## The unique PEGA automatic centering

Each underwater vessel is different in shape, and it is therefore important that it is accompanied, during the launch of the boat trailer properly. Our automatic centering ensures that your boat remains in balance, not damaged and landed in the middle of the trailer at all times. The system consists of a specific combination of keel rollers and tires. Standard from the implementation COMFORT.

## Countersink work

The PEGA boat trailers are galvanized with the delivery as best qualified workshops. Well as hot-dip galvanizing drum, according to the standard EN ISO 1461:1999 handled. PEGA boat trailers provides a two-year warranty on the plating.

## Powder coating, durable protection

Powder Coating provides lasting protection for your boat trailer and color can be supplied. Choice in any RAL This will give your boat trailer value in both appearance and protection. This addition takes place after thermal applying a zinc coating on the chassis frame and via hot-dip galvanizing.

## Our trailers are available in three trim levels.

### PEGA ECONOMY

The reliable, robust and secure base

### PEGA COMFORT

The line with a package of useful extras

### PEGA EXCLUSIVE

The name says it all: the exclusive line. In the event that the spending budget is more important than comfort, we can meet with the

### PEGA €UROLINER

Many quality for few euros

### PEGA V-LINER

With these six production lines, we provide the entire water industry of boat trailers in any quality or price.

We also produce for the professional market

### PEGA PROFLINER

with specific requirements.

## PEGA Aqua Clean System prevents sticking brake shoes

When boat trailers with the axles enter the (salt) water, every boater knows better than anyone that is unavoidable maintenance. PEGA uses all standard brake cables with grease nipples to the jamming of the brake counter. Now with a professionally landscaped PEGA flushing system there will of sticky friction against the inside of the brake drum of the past.

## Fully waterproof stainless steel bearings with 2 years warranty

Here you see an exploded view of a shaft. The axles are equipped with waterproof stainless steel bearings. This seal prevents unsafe wear and jamming of the lower work.

## Grease nipples on the brake

Stiff and rusted brake the brake return to endanger life. PEGA therefore provides all standard brake cables with grease nipples that lubricate the cables easily and quickly as possible. Attract When greasing brake!
